BTech Capstone Project Academic Year 2024-25

- **Title of the Project: College Event Management System**

- **Name of the Students: Ansh Bolia (1032212162), Akarsh Singh (1032212466), Aryan Sharma (1032212492) Ayushmaan (1032212491)**

- **Group ID: 70**

- **Name of the Internal Guide: Prof. Nikhil Mhala**

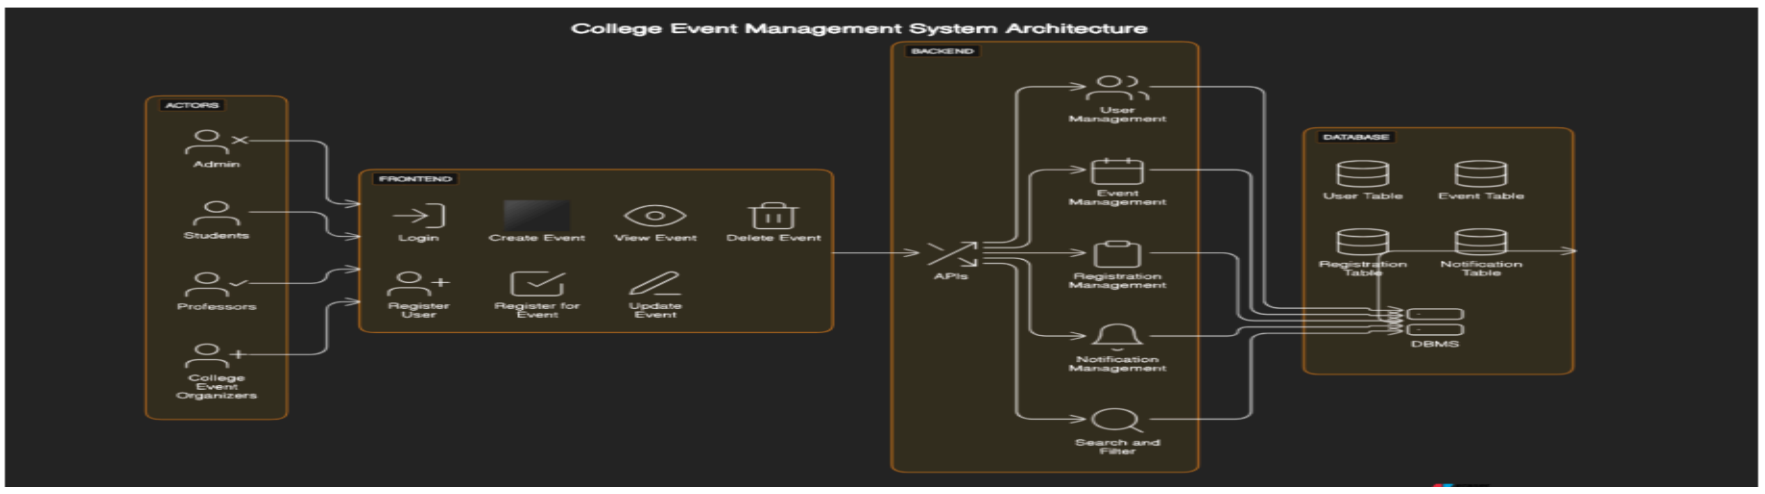
- **Summary of work:**

➢ **Abstract:** The College Event Management System (EMS) is a comprehensive platform designed to streamline the planning, coordination, and execution of events within a college setting. The system addresses the diverse needs of students, faculty, admin faculty, and event organizers, ensuring efficient communication, role-based management, and a user-friendly experience.

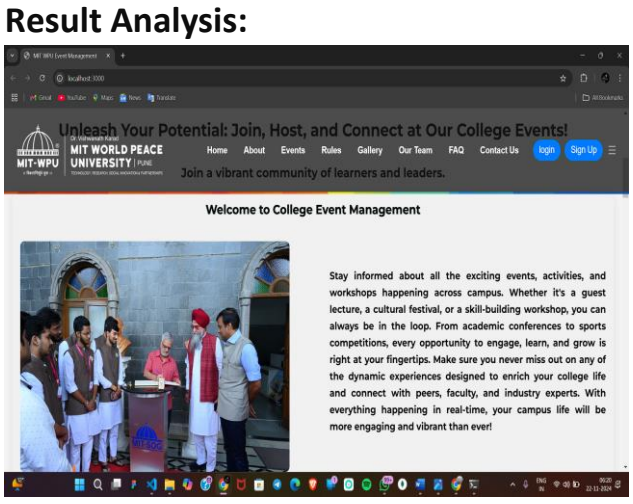
➢ **Objectives:**

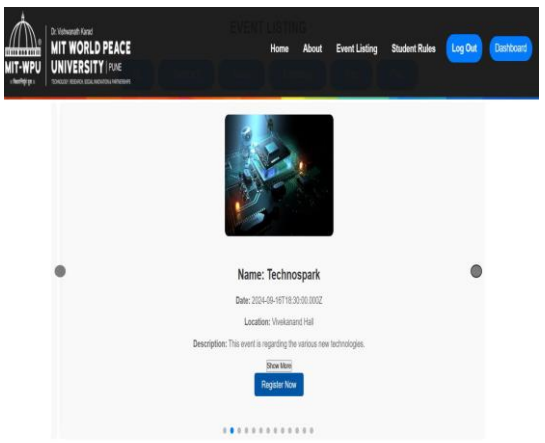
1. **Streamline Event Management Processes:**
   To provide a centralized system for managing college events, reducing manual effort, and minimizing errors in event planning and execution.
2. **Facilitate Efficient Communication:**
   Enable faculty and event organizers to notify students and participants about event updates, such as postponements or cancellations, via automated email notifications.

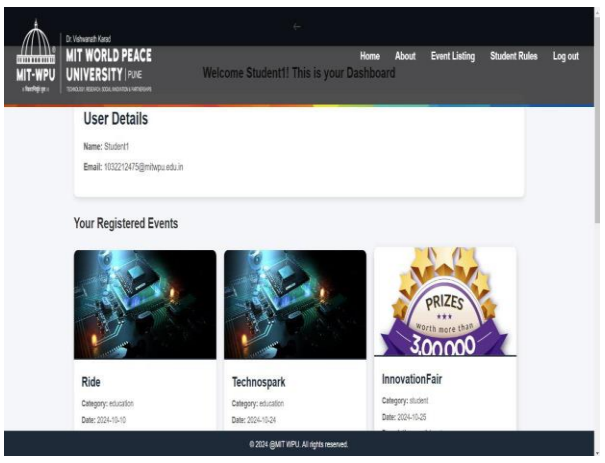
➢ **Methodology:**



➢ **Result Analysis:**







➢ **Conclusion:** The College Event Management System (EMS) is a comprehensive solution designed to address the challenges of managing and coordinating college events efficiently. By integrating modern web technologies and implementing role-based access, the system ensures a seamless user experience for students, faculty, admin faculty, and event organizers.
